Organises Workshop On

“Intellectual Property Rights (IPR) & Patents & Design Filing”

Title: Workshop On “Intellectual Property Rights (IPR) & Patents & Design Filing”

Date: 21st September 2024.

Venue: Audio Visual Room, Nabira Mahavidyalaya, Katol.

Timing: 11.00 am to 4.00 pm

Participant: Students of M.Sc. Botany, M.Sc. Zoology & M.Com.

Department of Botany & Department of Zoology as an IQAC Initiative in association with Rajiv Gandhi National Institute of Intellectual Property Management (RGNIIPM), Government of India, Nagpur (Under National Intellectual Property Awareness Mission), successfully organizes one day Workshop On “Intellectual Property Rights (IPR) & Patents & Design Filing”. This workshop was aimed to educate and inform participants about the importance and intricacies of IPR in today’s innovation-driven world. Hosted in our college the workshop saw the convergence of academicians, professionals, entrepreneurs, and students, all keen to deepen their understanding of IPR.

Objectives of this workshop was to:

- To provide a comprehensive overview of Intellectual Property Rights.
- To highlight the importance of IPR in protecting innovations and creations.
- To educate participants on the processes involved in filing and securing IPR.
- To discuss the challenges and opportunities in the field of IPR.

Inauguration was done by the Honorable Principal of the Nabira Mahavidyalaya, Dr S. K. Navin, who was the chief guest of the inaugural program. Dr. Bharat N. Suryawanshi, Asst. Controller of Patents & Designs, RGNIIPM Nagpur was the guest speaker of this workshop. Dr V. G. Barsagade, Dr. Bipinchandra B. Kalbande & Dr P. N. Raut were present at the inaugural function.

Dr. Suryawanshi started the session with the 'Introduction to IPR'. This session provided a basic understanding of IPR, covering its various forms such as patents, trademarks, copyrights, and trade secrets. In the next session he covered the 'Basics of Process of Filing IPR'. He guided participants through the step-by-step process of filing for patents and trademarks. Practical tips and best practices were shared to help attendees navigate the complexities of IPR registration. The next session was on 'IPR and Innovation', this interactive session highlighted the crucial role of IPR in fostering innovation and creativity. Case studies of successful IPR strategies were discussed to illustrate the benefits of robust IPR protection. The last session was about 'Challenges in IPR'. This session addressed common challenges faced in the field of IPR, including enforcement issues and the threat of infringement.

Outcome of the program: Students learn important points regarding IPR and gained awareness for continued education on IPR. The workshop was deemed a success, with participants expressing their appreciation for the comprehensive and informative sessions.

Number of beneficiaries: 58 students have participated in the workshop and were benefited from this workshop.

Abstract: *It is being expressed by many educationists that India can become a world superpower based on the new education system. Prime Minister has brought out the National Education Policy, 2020, which has been prepared in consultation with everyone. With its introduction, a wide discussion of education has started in the country. According to Gandhi, education is the holistic and excellent development of body, mind and soul of the child and man. Swami Vivekananda also said that education is to express the innate perfection of man. Amid all these discussions, there was a need to come up with a new National Education Policy to address the shortcomings of the 1986 Education Policy. Students cannot develop fully by studying the relevant subject only. Students need to have knowledge of Arts, Physical Education, Vocational Education and Competitive Examinations for complete development. Emphasis is also placed on recruitment of prospective teachers in all states and Union Territories for this purpose. There is discussion of quality promotion in teacher recruitment as per requirement. The primary goal is to radically change the school's working environment and culture, so that both teachers and students can develop to their maximum potential. In accordance with this, the present research paper reflects on the new national education policy and the condition and requirement of physical education.*

I. INTRODUCTION

First of all it is necessary to consider what 'education' is. The literal meaning of education is the process of learning and teaching, but if we look at its wider meaning, education is a continuous social process in any society which has some purpose and through which human inner powers are developed and behavior is improved. Through education, a person is made a competent citizen by increasing his knowledge and skills. It is noteworthy that with the announcement of the New Education Policy 2020, the Ministry of Manpower has been renamed as the Ministry of Education. This policy is expected to bring about transformational reforms in school and higher education in the country. Under its goals, it aims to achieve 100% schooling by 2030 as well as universalization of education from pre-school to secondary level. Currently the National Education Policy 2020 also emphasizes the importance of teachers for quality education. Which states that in order to identify and develop the specific potential of each student, teachers and parent's needs to be sensitive to their potential So that the academic and other abilities of the students can be fully developed? Entering the experimental realm of higher education can open doors of immense possibilities that can liberate individuals and communities from the vicious circle of adversity Therefore, providing high quality educational opportunities to all should be given top priority. Teachers truly shape the future of children and both students and teachers together build our prosperous nation. Meritorious students and qualified teachers have always been outstanding citizens of the society due to their full contribution. According to ancient civilizations, good teachers work to impart prescribed knowledge, skills and moral values to students. The National Education Policy 2020 has given special attention to the quality of teacher education, recruitment, placement, service conditions and status of teachers' rights. Only by paying attention to the above facts will the quality of education and enthusiasm of teachers reach the desired level. A sense of high standard and respect for teachers as per the ancient civilization will also be revived in the students. There is a need for motivation and empowerment among teachers and students to make our nation a better nation. Lack of good educational institutions in rural areas has been going on for centuries, leaving the young generation behind in learning and teaching. Special attention has been given to this in the National Education Policy and B.Ed. A provision has been

made for allotment of scholarships on the basis of merit to the students studying in the course. Four years B.Ed. This includes the provision of guaranteed employment in local areas to students (especially girls) after successful graduation, so that these students can serve as model and higher education teachers in the local area. Excellent teachers will be encouraged to work in rural areas and especially in teacher shortage areas. A major incentive for teaching students in rural areas is the provision of local accommodation in and around the school. It is the responsibility of the teacher to maintain the relationship in the community, so that the student can get an ideal and educational environment which is not possible due to frequent change of teachers. Therefore, it has been said by the government that the transfer of the teacher should be done only when it is urgent (at least). Emphasis has been laid on further development of Teacher Eligibility Test (TET) to select teachers through special competitive examinations. Teacher recruitment is an integral part of this process, for which all the interviews are conducted in local language to accurately assess the performance of any individual. By doing this, special emphasis is placed on the fact that the teachers will be able to communicate with the students in the vernacular.

Objectives of Physical Education:

- The overall development of the students is the main objective of this education. Its main objective is to develop the students mentally and intellectually.
- It is a means of preparing students as contributors to society. By which he can adapt to the society in future.
- Through this education, the art and quality of being healthy is explained to the students, as a healthy mind is created in a healthy body.
- Due to this education, emotional development of the students takes place. It works to control their emotional aspects.

This education is given to develop the muscles of the students. With the help of which they remain active continuously.

Physical Education in the context of School Education:

In the early 19th century, physical education became a subject in schools (in the form of German and Swedish gymnastics). Their influence on human health became more and more recognized. In the early 20th century, the main learning goals for students were personal hygiene and exercise for physical health. Educationist Thomas Wood described a sole emphasis on health as extremely limiting and detrimental to the development of the whole child. The educational community then adopted Wood's holistic approach to physical education and incorporated basic movement and physical skills for activities and sports into the core academic curriculum. Over the past 15 years, physical education has re-evolved as a link between physical activity and its outcomes (eg, physics and health) and the science of healthy living and the skills needed to enable children to lead active lifestyles. Sallis and McKenzie (1991) published a seminal article stating that physical education is a "holistic but physically active approach, including teaching social, cognitive, and physical abilities and accomplishing other goals through movement." Sallis and McKenzie (1991) posit two major goals of physical education: 1) preparing children and youth for physical exercise and 2) physical exercise during physical education. These goals reflect the lifelong benefits of improved physical education that enable children and youth to be active adults throughout their lives.

Education system& Criteria:

To follow an effective and transparent process in recruitment and promotion of teachers based on periodic performance appraisal.

National Professional Standards for Teachers (NPST) will be developed by National Council for Teacher Education by 2022.

A 'National Curriculum Framework for Teacher Education (NCFTE)' will be developed by the National Council for Teacher Education in consultation with NCERT.

By 2030, the minimum degree qualification for teaching will be a 4-year integrated B.Ed. Graduation will be mandatory.

Provisions relating to Higher Education:

Under NEP-2020, it is targeted to increase the 'Gross Enrollment Ratio' in higher educational institutions from 26.3% (year 2018) to 50%, with 3.5 crore new students to be created in higher educational institutions.

Under NEP-2020, a multiple entry and exit system has been adopted in undergraduate courses, under which students in 3 or 4 year undergraduate programs can exit the course at multiple stages and will be awarded the relevant degree or certificate (certificate). After 1 year, Advanced Diploma after 2 years, Bachelor Degree after 3 years and Bachelor Degree with Research after 4 years).

An 'Educational Bank of Credit' will be provided to digitally save the marks or credit obtained from various higher educational institutions, so that students can be awarded degrees based on their performance in various institutions.

Under the new educational policy M.Phil was cancelled.

Physical Education under New Education Policy:

Along with education of children, the government is also taking big steps for their sports and physical development. In fact, the Ministry of Human Resource Development, which is involved in formulating the National Education Policy, has been receiving several suggestions to make inclusion of physical education in the curriculum mandatory. The ministry has also started discussions in this regard. At present, physical education is included in the curriculum on an optional basis, but students do not take it seriously due to the burden of core subjects. Therefore, it is being considered for its compulsory inclusion in the curriculum. After internal consideration, the Ministry will also consult the States in this regard. Apart from this, the Ministry has taken the initiative to include NCC as a major subject. Officials in the ministry say that NCC and physical education are becoming irrelevant subjects in schools. Even in the National Education Policy 2020, physical education is described as essential for the holistic development of a child and the use of sports as a pedagogy in the learning process is advised. Keeping this in mind, the Delhi Board of School Education has drawn up a well-planned curriculum of physical education that will be run from class 1 to 12, under which not only selected school children will participate, but all students will participate and it will be compulsory. Under this curriculum every child will undergo a fitness test and an expert group of physical educators can evaluate the fitness test related to the health of the children and modify the physical education curriculum as needed. In such a scenario, this effort will definitely take the physical education and physical education to greater heights by giving them a new identity.

Holistic Education with Sports Integration:

Multidisciplinary and holistic education is part of the core principles of NEP. Along with subjects like science and social sciences, the curriculum should include sports and fitness that provide a holistic, useful and satisfying learning experience. At the school level, the National Education Policy, 2020 proposes the integration of sports or the use of physical activities in educational practices to enhance students' cognitive abilities while promoting their physical and mental health. Sports-integrated education will help students achieve the fitness level envisioned in the Fit India movement and help them adopt fitness as a lifelong approach. It will develop in them skills like cooperation, self-initiative, teamwork and responsibility. The National Education Policy, 2020 also proposes other ways to increase exposure of school students to sports and other activities. It offers greater flexibility and choice of subjects, allowing students to choose physical education as part of the curriculum. The policy proposes 'bagless' days for students to participate in local businesses and other activities such as sports and gardening. The National Education Policy, 2020 encourages creation of clubs including sports, yoga and health and wellness at schools, school campuses, and districts and beyond. Higher education institutions will have departments for subjects like sports, art and music to provide a multidisciplinary and inspiring environment. Credit will be awarded for such subjects in graduate programs. For adult education, the policy proposes the development of an educational curriculum framework. Along with basic literacy, numeracy and education, the framework will cover life skills (health care and awareness, child care and education and family welfare).

II. CONCLUSION

We can understand the importance of physical education in a way that the very old adage that a healthy mind resides in a healthy body. If you are not physically healthy, you will feel weak inside and your mind will also be sad. So having a healthy body is essential for a healthy mind. Physical education is needed to keep the body healthy. So this proves how important physical education is for a healthy body and a healthy mind. Thus it can be seen that the basic objective of the National Education Policy 2020 is to develop well-rounded human beings capable of rational thought and action which includes compassion and empathy, courage and resilience, scientific thinking and creative imagination, moral values and emotions. It aims to produce productive citizens who can contribute well to building an inclusive and pluralistic society as envisaged by the Constitution so that India can regain its status as a global leader and play a leading role in the development of humanity.

१.० प्रस्तावना :

भारतात व्हॉलीबॉल हा खेळ अत्यंत लोकप्रिय व सर्वदूर (शहरी व ग्रामीण भागात) खेळण्यात येणारा क्रीडाप्रकार आहे. किंबहुना हौशी व व्यावसायिक अशा दोन्ही प्रकारांमध्ये या खेळाची लोकप्रियता फार मोठी आहे. या कारणाने व्हॉलीबॉल खेळाशी संबंधित सखोल संशोधन करण्याला वावदेखील खूप आहे. आज व्हॉलीबॉल खेळाला फार महत्त्व आलेले आहे. व्हॉलीबॉल खेळामुळे सांघिक कार्याचा अनुभव, संघाबद्दल किंवा आपल्या समूहाबद्दल अभिमान, मी सर्वांचा सर्वजण माझे, खिलाडूवृत्ती आणि नेतृत्व गुणविकास यांना वाव मिळतो. तसेच जागरूकता, चापल्य, श्रेष्ठत्व, विरवृत्ती, हिम्मत इत्यादी वैयक्तिक गुणांचा विकास याच खेळाच्या माध्यमातून अगदी सहजपणे होण्यास मदत होते. खेळामुळे स्नायूसंबंधन सुयोग्य हालचालीतील समन्वयाबरोबर शारीरिक सृष्टीचे वाढ होते. खेळामुळे शारीरिक, मानसिक, भावनिक, क्षमतांचा विकास होतो हे आता सर्वमान्य झालेले आहे. व्हॉलीबॉल खेळ ही उत्स्फूर्त, आनंददायक, नवनिर्माणकारी व मनुष्याचा सर्वोत्तम विकास करणारी अशी स्वाभाविक कृती आहे.

खेळाचे स्वरूप हे नेहमी अनिश्चित असते. म्हणून कोणत्याही व्यक्तिला सतत एकाच प्रकारची संधी मिळत नाही किंवा दिली जात नाही. खेळाडू जेव्हा कठिण परिस्थितीतही आपल्या प्रदर्शनाला सौंदर्यपूर्ण बनवितो त्याचवेळी तो आपली ओळख निर्माण करतो. असाच खेळाडू आपले प्रयास व प्रदर्शनात अधिक सफल होतो आणि अशाच खेळाडूवर अधिक भरवसा ठेवला जातो हे त्याच्या उत्तमतेचे लक्षणच होय. व्हॉलीबॉल सारख्या खेळात विभिन्न गुण व तांत्रिक ज्ञान असणाऱ्या खेळाडूंचा संघात समावेश होतो असेच खेळाडू काही वैशिष्ट्यांमुळे खेळ प्रतिभेच्या रूपात ओळखले जातात. यांतील

अनेक प्रतिभासंपन्न खेळाडूंनी केवळ आपल्या राष्ट्रालाच गौरवान्वित केले नसून त्यांनी जगातील लोकांच्या मनात आपले स्थान पक्के केले आहे. त्यांचे कौशल्य, तंत्राचे ज्ञान, त्यांचा संयम, आक्रमकता पाहून जग विस्मयचकित झाले आहे. व्हॉलीबॉल खेळाडूंच्या क्रीडा कौशल्याला प्रभावित करणारे घटक बरेच आहेत, त्यापैकी महत्त्वाचे घटक म्हणजे जैविक घटक ज्यात शरीरयष्टी, अंतस्त्राव ग्रंथी, विविध क्षमता बुद्धिमत्ता व कार्यशक्ती, व मानसिक योग्यतेचा प्रभाव यांचा समावेश होतो तर बाह्य घटक ज्यामध्ये कुटुंब, शाळा, कुटुंबाची आर्थिक स्थिती, शेजार व मित्र, व भौतिक वातावरण यांचा प्रभाव होतो. या सर्व बाबींचा विचार करून प्रस्तुत संशोधनकार्यात विविध प्रकारच्या आक्रमकतेचा आंतर विद्यापीठ स्तरावर खेळणाऱ्या व्हॉलीबॉल खेळाडूंच्या क्रीडा प्रदर्शनावर काय प्रभाव होतो याचा चिकित्सक अभ्यास करण्यात आला आहे.

२.० संशोधन पद्धती :

कोणतेही कार्य करतांना निश्चित असे उद्दिष्ट ठरवून त्या उद्दिष्टापर्यंत पोहचण्याकरिता निश्चित मार्गक्रम व दिशा, उद्देश ठरविणे आवश्यक आहे. म्हणून संशोधनाची कार्यपद्धती समजावून घेण्यात आली व प्रस्तुत संशोधनासाठी मुख्यतः सर्वेक्षण पद्धतीचा अवलंब करण्यात आला. प्रस्तुत संशोधन करण्यासाठी संशोधन क्षेत्र म्हणून महाराष्ट्र राज्याची निवड करण्यात आली. प्रस्तुत अध्ययन हे वस्तुनिष्ठ असावे या संदर्भात काळजी घेतली आहे. प्रस्तुत अध्ययनात महाराष्ट्रातील सर्व विद्यापीठांचा अध्ययन विश्व म्हणून विचार करण्यात आला. संशोधन करण्यासाठी संशोधन क्षेत्र म्हणून महाराष्ट्र राज्यातील निवडक विद्यापीठाचा विचार करण्यात आला असून या विद्यापीठातील आंतर विद्यापीठ स्तरावर खेळणाऱ्या सर्व व्हॉलीबॉल खेळाडूंचा जनसंख्या म्हणून विचार करण्यात आला.

गैर संभाव्यता पद्धतीतील सहेतुक किंवा उद्देश्यपूर्ण पद्धतीचा (Purposive/Objective Sampling) अवलंब करून नमुना निवडण्यात आला. प्रस्तुत संशोधनकार्यात तथ्य संकलनाकरीता महाराष्ट्रातील आंतर विद्यापीठ स्तरावर खेळणाऱ्या एकूण ११५ व्हॉलीबॉल खेळाडूंची नमुना म्हणून निवड करण्यात आली होती. तथ्यांचे योग्य संकलन व विश्लेषण यासाठी वर्णनात्मक संशोधन आराखड्याची निवड करण्यात आली होती. या संशोधनकार्यात माहिती संकलित करण्याकरीता प्रमाणीकृत पद्धतीचा वापर करण्यात आला. व्हॉलीबॉल खेळाडूंच्या आक्रमकतेचा त्यांच्या क्रीडा प्रदर्शपसवरील प्रभावाचे मापन करण्याकरीता डॉ. एम. के. सुल्तानीया यांची अॅग्रेशन इन्व्हेंटरी

(Aggression Inventory) व स्वनिर्मित लघु प्रश्नावलीचा वापर करण्यात आला. तथ्यांचे विश्लेषण करण्याकरीता सांख्यिकीय तंत्रातील विविध चाचणींचा (वारंवारीता व बहुलक) उपयोग करण्यात आला व त्या आधारावर निष्कर्ष काढण्यात आले. अभ्यासातील विविध घटक, पडताळण्याकरीता व संशोधनाचा आराखडा लक्षात घेता व्हॉलीबॉल खेळाडूंच्या कौशल्याला प्रभावित करणाऱ्या मानसिक घटकांचा अभ्यास करण्यासाठी काई वर्ग मूल्य सांख्यिकीय चाचणीचा वापर करण्यात आला. संभाव्यता पातळी ०.०५ निर्धारित करण्यात आली. वरील सर्व प्रक्रियानंतर प्राप्त झालेले निष्कर्ष जास्तीत जास्त वस्तुनिष्ठ कसे राहतील याची दखल घेण्यात आली.

Department of Botany & Department of Zoology as an IQAC Initiative in association with Rajiv Gandhi National Institute of Intellectual Property Management (RGNIIPM), Government of India, Nagpur (Under National Intellectual Property Awareness Mission), successfully organizes one day Workshop On “Intellectual Property Rights (IPR) & Patents & Design Filing”. This workshop was aimed to educate and inform participants about the importance and intricacies of IPR in today’s innovation-driven world. Hosted in our college the workshop saw the convergence of academicians, professionals, entrepreneurs, and students, all keen to deepen their understanding of IPR.

Objectives of this workshop was to:

- To provide a comprehensive overview of Intellectual Property Rights.
- To highlight the importance of IPR in protecting innovations and creations.
- To educate participants on the processes involved in filing and securing IPR.
- To discuss the challenges and opportunities in the field of IPR.

Inauguration was done by the Honorable Principal of the Nabira Mahavidyalaya, Dr S. K. Navin, who was the chief guest of the inaugural program. Dr. Bharat N. Suryawanshi, Asst. Controller of Patents & Designs, RGNIIPM Nagpur was the guest speaker of this workshop. Dr V. G. Barsagade, Dr. Bipinchandra B. Kalbande & Dr P. N. Raut were present at the inaugural function.

Dr. Suryawanshi started the session with the 'Introduction to IPR'. This session provided a basic understanding of IPR, covering its various forms such as patents, trademarks, copyrights, and trade secrets. In the next session he covered the 'Basics of Process of Filing IPR'. He guided participants through the step-by-step process of filing for patents and trademarks. Practical tips and best practices were shared to help attendees navigate the complexities of IPR registration. The next session was on 'IPR and Innovation', this interactive session highlighted the crucial role of IPR in fostering innovation and creativity. Case studies of successful IPR strategies were discussed to illustrate the benefits of robust IPR protection. The last session was about 'Challenges in IPR'. This session addressed common challenges faced in the field of IPR, including enforcement issues and the threat of infringement.

Outcome of the program: Students learn important points regarding IPR and gained awareness for continued education on IPR. The workshop was deemed a success, with participants expressing their appreciation for the comprehensive and informative sessions.

Number of beneficiaries: 58 students have participated in the workshop and were benefited from this workshop.
